Merger –Kawe AG, Hendschiken and Mechtronik AG, Untersiggenthal merge to kawe ag

Dear Customer
Dear Business Partner

Since February 2018 Mechtronik AG is a member of the Kawe-Group. Strategic considerations have convinced us that a merger of Mechtronik AG and Kawe AG offers many advantages.

The merger has taken place at the end of April and we are pleased to announce that we are operating now with the name kawe ag at the locations Hendschiken and Untersiggenthal (head office).

The delivery and billing address of the former Mechtronik AG is now:

kawe ag
Schiffmühlestrasse 34A
CH-5417 Untersiggenthal

The telephone numbers and e-mail addresses of your contact persons of kawe ag, Untersiggenthal, as well as further details (VAT number bank account information, ZAZ number) can be found in the appendix.

At kawe ag, Hendschiken there are currently no changes concerning the company address and your contact details.

The merger of the two companies also offers you many advantages:

- With approximately 70 motivated and specialized employees, we can react very flexibly and efficiently to your needs and wishes. Special projects are our strength – Put us to a test!
- As a systems supplier you receive everything from one source due to our complete in-house production.
- You retain your current contact and benefit from additional know-how as well as from a broader and deeper range of production.
- With the merger, we will make even better use of synergies from existing resources and competencies and bundle order volumes, so that we can offer you an optimal price / performance ratio.

As an engineering service provider, special machine and component manufacturers, we are therefore even better positioned after the merger to be able to offer you outstanding services in the future.

We trust in our customers and invest in the future. In addition to the planned investments in the machinery and the IT-infrastructure, another industrial hall with 2'520 m² is currently being built in Untersiggenthal, adjacent to the kawe production plant. This new building will be ready for occupancy in spring 2020 and kawe ag, Henschiken will relocate to Untersiggenthal. Further information can be found at www.kawe.ch.

We are looking forward to the further cooperation with you!

Yours sincerely

kawe ag

Michel Indrizzi
Managing Director

Stephan Leunig
Managing Director
